1. Nature of Business

CardioGenics Inc. ("CardioGenics") was incorporated on November 20, 1997 in the Province of Ontario, Canada, and carries on the business of development and commercialization of diagnostic test products to the In Vitro Diagnostics testing market. CardioGenics has several test products that are in various stages of development.

CardioGenics' revenues, to date, have been primarily comprised of grant revenue and Scientific Research Tax Credits from government agencies. There can be no assurance that the Company will be successful in obtaining regulatory approval for the marketing of any of the existing or future products that the Company will succeed in developing.

On October 27, 2009, the name of the Company was changed from JAG Media Holdings, Inc. to CardioGenics Holdings, Inc.

2. Basis of Presentation

In the opinion of management, the unaudited condensed interim consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, necessary to present fairly the condensed interim consolidated financial position of CardioGenics Holdings Inc. and its subsidiaries under generally accepted accounting principles in the United States ("US GAAP") as of April 30, 2015, their results of operations for the three and six months ended April 30, 2015 and 2014, changes in deficiency for the six months ended April 30, 2015 and 2014. CardioGenics Holdings Inc. and its subsidiaries are referred to together herein as the "Company". Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted from these consolidated financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the consolidated financial statements, notes to consolidated financial statements and the other information in the audited consolidated financial statements of the Company as of October 31, 2014 and 2013 (the "Audited Financial Statements") included in the Company's Form 10-K that was previously filed with the SEC on February 12, 2015 and from which the October 31, 2014 consolidated balance sheet was derived.

The results of the Company's operations for the six months ended April 30, 2015 are not necessarily indicative of the results of operations to be expected for the full year ending October 31, 2015.

The accompanying condensed interim consolidated financial statements have been prepared using the accounting principles generally accepted in the United States of America applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business.

The Company has incurred operating losses and has experienced negative cash flows from operations since inception. The Company has an accumulated deficit at April 30, 2015 of approximately \$48.6 million. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern. The Company has funded its activities to date almost exclusively from debt and equity financings. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company will continue to require substantial funds to continue research and development, including preclinical studies and clinical trials of its products, and to commence sales and marketing efforts, if the FDA and other regulatory approvals are obtained. In order to meet its operating cash flow requirements, management's plans include financing activities such as private placements of its common stock and issuances of convertible debt instruments. Management is also actively pursuing industry collaboration activities including product licensing and specific project financing.

While the Company believes it will be successful in obtaining the necessary financing to fund its operations, meet revenue projections and manage costs, there are no assurances that such additional funding will be achieved and that it will succeed in its future operations. The accompanying condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts of liabilities that might be necessary should the Company be unable to continue in existence.

3. Summary of Significant Accounting Policies.

Derivative Instruments

The Company's derivative liabilities are related to embedded conversion features of the Notes Payable. For derivative instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in fair value recognized in earnings each reporting period. The Company uses the Black-Scholes model to value the derivative instruments at inception and subsequent valuation dates and the value is re-assessed at the end of each reporting period, in accordance with Accounting Standards Codification ("ASC") 815. Derivative instrument liabilities are classified in the consolidated balance sheet as current or non-current based on whether or not the net-cash settlement of the derivative instrument could be required within twelve months of the consolidated balance sheet date.

Beneficial Conversion Charge

The intrinsic value of beneficial conversion features arising from the issuance of convertible debentures with conversion rights that are inthe-money at the commitment date is recorded as debt discount and amortized to interest expense over the term of the debentures. The intrinsic value of a beneficial conversion feature is determined after initially allocating an appropriate portion of the proceeds received from the sale of the debentures to any detachable instruments, such as warrants, included in the sale or exchange based on relative fair values.

4. Income Taxes

Based on the Company's evaluation, management has concluded that there are no significant tax positions requiring recognition in the condensed interim consolidated financial statements.

The Company has incurred losses in Canada since inception, which have generated net operating loss carryforwards for income tax purposes. The net operating loss carryforwards arising from Canadian sources as of April 30, 2015 approximated \$7,502,000 which will expire from 2015 through 2033. All fiscal years as originally filed have been assessed. Claims relating to research and development credits are open for review for the fiscal years ended October, 2014 and 2013.

A research and development tax credit for 2012 for which the Company received a refund of \$81,460 is being refuted by Canadian taxation authorities. The Company is disputing the position taken by the taxation authorities, but has established a reserve against possible repayment.

Returns for the years 2008 through 2014 are yet to be filed. As of April 30, 2015, the Company believes it has net operating loss carryforwards from US sources of approximately \$45,374,000 available to reduce future Federal taxable income which will expire from 2020 through 2033.

For the six months ended April 30, 2015 and 2014, the Company's effective tax rate differs from the statutory rate principally due to the net operating losses for which no benefit was recorded.

5. Notes Payable

On November 19, 2012, the Company entered into an agreement ("Line") with JMJ Financial ("Lender") whereby the Company may borrow up to \$350,000 from the Lender in increments of \$50,000. The Line is subject to an original issue discount of \$50,000. Advances under the Line ("Notes") have a maturity date of one year from the date of the advance. If the advance is repaid within three months, the advance is interest free. If not repaid within three months, the advance may not be repaid before maturity and carries interest at 5%. The Lender has the right at any time to convert all or part of the outstanding principal and accrued interest (and any other fees) into shares of fully paid and non-assessable shares of common stock of the Company at a price equal to the lesser of \$0.23 and 60% of the lowest trade price in the 25 trading days previous to the conversion. Unless agreed in writing by the parties, at no time will the Lender convert any amount owing under the Line into common stock that would result in the Lender owing more than 4.99% of the common stock outstanding.

On May 23, 2014, the Company issued promissory notes (the "LG Notes") to LG Capital Funding, LLC and Adar Bays, LLC (collectively the "Holders") in the amount of \$52,500 each bearing interest at 8% annually due May 23, 2015. The LG Notes and accrued interest may be converted into shares of the Common Stock of the Company at a 42% discount to the lowest closing bid with a 12 day look back. The LG Notes may be prepaid with the following penalties: (i) if the Notes are prepaid within 60 days of the issue date, then at 130% of the face amount plus any accrued interest; and, (ii) if the LG Notes are prepaid after 60 days after the issue date but less than 181 days after the issue date, then at 140% of the face amount plus any accrued interest. The LG Notes may not be prepaid after the 180th day after issue.

The LG Notes were all converted to common shares in the period.

On November 12, 2014, the Company received \$50,000 from Chicago Ventures in exchange for a note payable bearing interest at 10% due in one year, convertible into shares in the Company's common stock at a 40% discount from the lowest closing price of the common shares over the prior 15 days.

On November 20, 2014, the Company reached a settlement with IBC Funds, LLC ("IBC") whereby IBC agreed to pay \$78,026 of the Company's debts in exchange for the right to purchase shares in the Company's common stock at a 40% discount from the lowest closing price of the common shares over the prior 15 days.

On December 15, 2014, the Company received \$52,500 from LG Capital in exchange for a note payable bearing interest at 8% due in one year, convertible into shares in the Company's common stock at a 42% discount from the lowest closing price of the common shares over the prior 15 days.

On March 5, 2015, the Company received \$55,250 from Activus Private Equity Fund, LLC in exchange for a note payable bearing interest at 8% due November 26, 2015, convertible into shares in the Company's common stock at a 40% discount from the average of the lowest two trading prices of the common shares over the prior 10 trading days.

On March 25, 2015, the Company received \$52,500 from Adar Bays in exchange for a note payable bearing interest at 8% due in one year, convertible into shares in the Company's common stock at a 42% discount from the lowest closing price of the common shares over the prior 15 days.

A summary of the Notes Payable at April 30, 2015 and October 31, 2014 follows:

	Ap	ril 30, 2015	Oc	tober 31, 2014
Convertible Note Payable, due February 20, 2015	\$		\$	12,529
Convertible Notes Payable, due May 23, 2015		_		105,000

Convertible Note Payable, due December 15, 2015		52,500		_
Convertible Note Payable, due November 26, 2015		55,250		_
Convertible Note Payable, due March 25, 2016		42,500		_
Debt Discount - value attributable to conversion feature attached to Notes, net of				
accumulated amortization of \$105,023 and \$71,863		(171,508)		(120,666)
Total	-	105,023		71,863
Less: Current portion		105,023		71,863
Total Long-term portion	\$	_	\$	_

As described in further detail in Note 6, "Derivative Liabilities", the Company determines the fair value of the embedded derivatives and records them as a discount to the Notes and as a derivative liability. Upon conversion of the Notes to Common Stock, any remaining unamortized discount is charged to financing expense.

6. Derivative Liabilities

Convertible notes-embedded conversion features:

The Notes meet the definition of a hybrid instrument, as defined in ASC 815. The hybrid instrument is comprised of i) a debt instrument, as the host contract and ii) an option to convert the debentures into common stock of the Company, as an embedded derivative. The embedded derivatives derive their value based on the underlying fair value of the Company's common stock. The embedded derivatives are not clearly and closely related to the underlying host debt instrument since the economic characteristics and risk associated with these derivatives are based on the common stock fair value.

The Company determines the fair value of the embedded derivatives and records them as a discount to the Notes and a derivative liability. The Company has recognized a derivative liability of \$357,901 at April 30, 2015. Accordingly, changes in the fair value of the embedded derivative are immediately recognized in earnings and classified as a gain or loss on the embedded derivative financial instrument in the accompanying condensed consolidated statements of operations. The Company recognized a gain of \$323,499 in the fair value for the three months ended April 30, 2015 and a loss of \$328,849 in the fair value for the six months ended April 30, 2015.

The Company estimated the fair value of the embedded derivatives using a Black Scholes model with the following assumptions: conversion price \$0.012 per share according to the agreements; risk free interest rate of .11%; expected life of 1 year; expected dividend of zero; a volatility factor of 245% to 342%, as of April 30, 2015. The expected lives of the instruments are equal to the contractual term of the conversion option. The expected volatility is based on the historical price volatility of the Company's common stock. The risk-free interest rate represents the U.S. Treasury constant maturities rate for the expected life of the related conversion option. The dividend yield represents anticipated cash dividends to be paid over the expected life of the conversion option.

7. Fair Value Measurements

As defined by the ASC, fair value measurements and disclosures establish a hierarchy that prioritizes fair value measurements based on the type of inputs used for the various valuation techniques (market approach, income approach and cost approach). The levels of hierarchy are described below:

- Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted market prices that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets, such as interest rates and yield curves that are observable at commonly-quoted intervals.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions, as there is little, if any, related market activity.

The following table summarizes the financial liabilities measured at fair value on a recurring basis as of April 30, 2015, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	Quoted Prices in				Total Increase (Reduction)
	Active Markets for	Significant Other	Significant		in Fair Value
Balance Sheet	Identical Assets or	Observable Inputs	Unobservable	April 30, 2015	Recorded at
Location	Liabilities (Level 1)	(Level 2)	Inputs (Level 3)	Total	April 30, 2015
Liabilities:					
Derivative liability – on Notes Payable	\$ -	\$ -	\$ 357,901	\$ 357,901	\$ 328,849

The table below sets forth a summary of changes in the fair value of the Company's Level 3 financial liability, or derivative liabilities related to the senior secured convertible notes and warrants, for the six months ended April 30, 2015:

	 2015	2014		
Balance at beginning of period	\$ 201,260	\$	99,702	
Additions to derivative instruments	287,570		35,000	
Change in fair value of derivative liabilities	328,849		819	
Settlements	(459,778)		(61,076)	
Balance at end of period	\$ 357,901	\$	74,445	

8. Stock Based Compensation

Stock-based employee compensation related to stock options for the six months ended April 30, 2015 and 2014 amounted to \$-0-.

The following is a summary of the common stock options outstanding, granted, forfeited or expired and exercised under the Plan:

	Options	 Weighted Average Exercise Price
Outstanding – October 31, 2013	30,000	\$ 0.90
Granted	_	_
Forfeited/Expired	_	_
Exercised		_
Outstanding – October 31, 2014	30,000	\$ 0.90
Granted	_	_
Forfeited/Expired	_	_
Exercised		_
Outstanding – April 30, 2015	30,000	\$ 0.90

Options typically vest immediately on the date of grant. As such, the Company does not have any unvested options or unrecognized compensation expense at April 30, 2015.

9. Warrants

Outstanding warrants are as follows:

	April 30, 2015	October 31, 2014
Issued to Flow Capital Advisors Inc. on settlement of lawsuit in August 2011, entitling		
the holder to purchase 1 common share in the Company at an exercise price of \$0.30	250,000	250 000
per common share up to and including August 23, 2016	250,000	250,000
Issued to Flow Capital Advisors Inc. on settlement of lawsuit August 2011, entitling the holder to purchase 1 common share in the Company at an exercise price of \$0.50		
per common share up to and including August 23, 2016	250,000	250,000
Issued to Flow Capital Advisors Inc. on settlement of lawsuit August 2011, entitling	250,000	250,000
the holder to purchase 1 common share in the Company at an exercise price of \$0.75		
per common share up to and including August 23, 2016	500,000	500,000
Issued to Flow Capital Advisors Inc. on settlement of lawsuit August 2011, entitling	·	·
the holder to purchase 1 common share in the Company at an exercise price of \$1.00		
per common share up to and including August 23, 2016	500,000	500,000
Issued to Flow Capital Advisors Inc. on settlement of lawsuit August 2011, entitling		
the holder to purchase 1 common share in the Company at an exercise price of \$0.75		
per common share up to and including August 23, 2016	500,000	500,000
Issued to debenture holders February 2013 entitling the holders to purchase 1 common		
share in the Company at an exercise price of \$0.25 per common share up to and	600,000	600,000
including February 27, 2016	600,000	600,000
Issued to debenture holders May 2013 entitling the holders to purchase 1 common share in the Company at an exercise price of \$0.15 per common share up to and		
including June 3, 2016	750,000	750,000
Issued to debenture holders June 2013 entitling the holders to purchase 1 common	750,000	750,000
share in the Company at an exercise price of \$0.15 per common share up to and		
including June 3, 2016	232,500	232,500
Issued to consultants on August 5, 2013 entitling the holders to purchase 1 common	- ,	- ,
share in the Company at an exercise price of \$0.15 per common share up to and		
including August 4, 2023	2,500,000	2,500,000
Issued to consultants on August 5, 2013 entitling the holders to purchase 1 common		
share in the Company at an exercise price of \$0.10 per common share up to and		
including August 4, 2023	1,500,000	1,500,000

g the holder to purchase 1 common		
5 per common share up to and		
	250,000	250,000
ing the holder to purchase 1 common		
5 per common share up to and		
	125,000	<u>-</u>
	8,457,500	8,332,500
	ng the holder to purchase 1 common 5 per common share up to and	F- 11 500,000 In the holder to purchase 1 common 5 per common share up to and 250,000 In the holder to purchase 1 common 5 per common share up to and 125,000

10. Issuance of Common Stock

During the six months ended April 30, 2015, the Company issued the following common shares:

Issued for services rendered	250,000
Issued to shareholder on conversion of shareholders loan at \$0.11 per share	227,273
Issued on conversion of Notes Payable	19,359,930
	19,837,203

11. Net Loss per Share

The following table sets forth the computation of weighted-average shares outstanding for calculating basic and diluted earnings (loss) per share (EPS):

	Three Months Ended April 30,		Six Months Ended April 30,	
	2015	2014	2015	2014
Weighted-average shares - basic	87,941,755	60,447,704	80,941,470	59,915,908
Effect of dilutive securities	14,195,552	<u> </u>		
Weighted-average shares - diluted	102,137,307	60,447,704	80,941,470	59,915,908

Basic earnings (loss) per share "EPS" and diluted EPS for the three and six months ended April 30, 2015 and 2014 have been computed by dividing the net income (loss) available to common stockholders for each respective period by the weighted average shares outstanding during that period. All outstanding options and warrants to be issued upon the exercise of the outstanding option and warrants representing 8,487,500 incremental shares have been excluded from the three months ended April 30, 2015 computation of earnings per share as they are antidilutive. All outstanding options, warrants and shares to be issued upon the exercise of the outstanding options and warrants and conversion of debt representing 31,543,416 and 12,918,436 incremental shares, respectively, have been excluded from the six months ended April 30, 2015 and the three and six months ended April 30, 2014 computation of diluted EPS as they would not affect the EPS for the three months ended April 30, 2015 and are antidilutive given the net losses generated for the other periods presented.

12. Supplemental Disclosure of Cash Flow Information

		For the Six Months Ended April 30,			
		2015		2014	
Cash paid during the year for:					
Interest	\$	11,336	\$	7,834	
Income taxes	\$	_	\$	_	
Non-cash financing activities					
Conversion of Notes Payable	\$	208,106	\$	58,001	
Settlement of derivative liability	\$	459,778	\$	61,076	
Issuance of shares on settlement of suit	\$	_	\$	189,000	
Common share issued for services	\$	35,000	\$	_	
Common shares issued for shareholder's loan	\$	31,052	\$	_	
F-	12.				

13. Commitments and contingent liabilities

On June 3, 2015, JMJ Financial filed a suit in Florida court demanding payment of its outstanding note payable in the amount of \$77,235 for failure to convert a portion of its note into 1,800,000 common shares. The parties have agreed to resolve the matter by the Company agreeing with JMJ Financial to repay the \$77,235 in equal monthly installments of \$6,436 over twelve (12) months commencing June 23, 2015. The Company may elect to pay any of the scheduled payments in the form of common stock calculated using the lowest closing price of the common stock in the five trading days prior to the Company delivering the common stock. The suit was subsequently withdrawn June 19, 2015.

14. Subsequent Events

- (i) On May 11, 2015, the Company was served with a default notice from JMJ Financial under its note payable, the parties have reached a settlement. See Note 13.
- (ii) On June 3, 2015, the Company issued 1,116,667 common shares to an investor in exchange for \$35,000.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read this Management's Discussion and Analysis ("MD&A") in combination with the accompanying unaudited condensed interim consolidated financial statements and related notes as well as the audited consolidated financial statements and the accompanying notes to the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") included within the Company's Annual Report on Form 10-K filed on February 12, 2015.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our unaudited condensed interim consolidated financial statements, which have been prepared in accordance with U.S. GAAP for interim financial statements filed with the Securities and Exchange Commission.

The preparation of these unaudited condensed interim consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to accounts receivable, equipment, stock-based compensation, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The accounting policies and estimates used as of October 31, 2014, as outlined in our previously filed Form 10-K, have been applied consistently for the six months ended April 30, 2015.

Related Party Transactions

None

Off-Balance Sheet arrangements

We are not party to any off-balance sheet arrangements.

Results of operations

Six months ended April 30, 2015 as compared to six months ended April 30, 2014

	Six Months Ended April 30,				
		2015		2014	\$ Change
Revenue	\$	<u>–</u>	\$	_	\$ _

	2				

Revenues

During the six months ended April 30, 2015 and 2014 we generated no revenues.

Operating expenses

Operating expenses include the costs to a) develop and patent a method for controlling the delivery of compounds to a chemical reaction; b) develop the QL Care Analyzer, a small, automated, robust and proprietary point of care testing device; and, c) custom paramagnetic beads through our proprietary method which improves their light collection. In addition, the Company is in the process of adapting test products for the Point Of Care ("POC") disposable, single-use cartridge-format. Detailed manufacturing specifications and costing have been created and custom manufacturers have been sourced.

General and administrative expenses

General and administrative expenses consist primarily of compensation to officers, occupancy costs, professional fees, listing costs and other office expenses. The decrease in general and administrative expenses is attributable primarily to a decrease in consulting fees and personnel costs.

Research and product development, net of investment tax credits

Research and development expenses consist primarily of salaries and wages paid to officers and employees engaged in those activities and supplies consumed therefor. Research and development expenses have reduced from the previous year through a reduction in staff.

Interest expense and bank charges

Interest expense consists primarily of interest on Notes and debt discount amortization on those Notes. Debentures issued in the third quarter of 2013 were retired in the fourth quarter of 2014 and hence the interest was substantially lower than that in 2014.

Three months ended April 30, 2015 as compared to three months ended April 30, 2014

	Three Months Ended April 30,

	1					

Revenues

During the three months ended April 30, 2015 and 2014 we generated no revenues.

Operating expenses

Operating expenses include the costs to a) develop and patent a method for controlling the delivery of compounds to a chemical reaction; b) develop the QL Care Analyzer, a small, automated, robust and proprietary point of care testing device; and, c) custom paramagnetic beads through our proprietary method which improves their light collection. In addition, the Company is in the process of adapting test products for the POC disposable, single-use cartridge-format. Detailed manufacturing specifications and costing have been created and custom manufacturers have been sourced.

General and administrative expenses

General and administrative expenses consist primarily of compensation to officers, occupancy costs, professional fees, listing costs and other office expenses. The decrease in general and administrative expenses is attributable primarily to a decrease in personnel cost.

Research and product development, net of investment tax credits

Research and development expenses consist primarily of salaries and wages paid to officers and employees engaged in those activities and supplies consumed therefor. Research and development expenses in 2015 are lower than for the same period in 2014 due to the reduction in staff in the current period.

Interest expense and bank charges

Interest expense consists primarily of interest on Notes and debt discount amortization on those Notes. Debentures issued in the third quarter of 2013 were retired in the fourth quarter of 2014 and hence the interest expense was substantially lower than that in 2014.

Liquidity and Capital Resources

We have not generated significant revenues since inception. We incurred a net loss of approximately \$938,000 and a cash flow deficiency from operating activities of \$310,738 for the six months ended April 30, 2015. We have not yet established an ongoing source of revenues sufficient to cover our operating costs and allow us to continue as a going concern. We have funded our activities to date almost exclusively from debt and equity financings. These matters raise substantial doubt about our ability to continue as a going concern.

We will continue to require substantial funds to continue research and development, including preclinical studies and clinical trials of our products, to fund the ongoing operations and to commence sales and marketing efforts. Our plans include financing activities such as private placements of our common stock and issuances of convertible debt instruments. We are also actively pursuing industry collaboration, including product licensing and specific project financing.

We believe we will be successful in obtaining the necessary financing to fund our operations, meet revenue projections and manage costs; however, there are no assurances that such additional funding will be achieved and that we will succeed in obtaining the funding to support our future operations.

Seasonality

We do not believe that our business is subject to seasonal trends or inflation. On an ongoing basis, we will attempt to minimize any effect of inflation on our operating results by controlling operating costs.

Recent Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of the inception-to-date information on the statements of operations, cash flows and stockholders' equity. The amendments in ASU 2014-10 will be effective prospectively for annual reporting periods beginning after December 15, 2014, and interim periods within those annual periods, however early adoption is permitted. The Company has effective early adoption of ASU 2014-10 in these interim condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

N/A.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures:

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) of the Exchange Act) to provide reasonable assurance regarding the reliability of our financial reporting and preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. A control system, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Because of the inherent limitations in all control systems, internal control over financial reporting may not prevent or detect misstatements. The design and operation of a control system must also reflect that there are resource constraints and management is necessarily required to apply its judgment in evaluating the cost-benefit relationship of possible controls.

Our management assessed the effectiveness of our internal control over disclosure controls and procedures for the quarter ended April 30, 2015 based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on such assessment, our management concluded that during the period covered by this report, our internal control over financial reporting was not effective. Management has identified the following material weaknesses in our internal control over financial reporting:

- Lack of documented policies and procedures;
- Lack of effective separation of duties, which includes monitoring controls, between the members of management;
- Lack of resources to account for complex and unusual transactions; and
- Lack of effective review of consolidated financial statements.

Management is currently evaluating what steps can be taken in order to address these material weaknesses.

(b) Changes in Internal Control over Financial Reporting:

During the fiscal quarter ended April 30, 2015, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On June 3, 2015, JMJ Financial filed a suit in Florida court demanding payment of its outstanding note payable in the amount of \$77,235 for failure to convert a portion of its note into 1,800,000 common shares. The parties have agreed to resolve the matter by the Company agreeing with JMJ Financial to repay the \$77,235 in equal monthly installments of \$6,436 over twelve (12) months commencing June 23, 2015. The Company may elect to pay any of the scheduled payments in the form of common stock calculated using the lowest closing price of the common stock in the five trading days prior to the Company delivering the common stock. The suit was subsequently withdrawn June 19, 2015.

Item 1A. Risk Factors

Not Applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes sales of unregistered securities by the Company during the fiscal quarter ended April 30, 2015:

Investor	Investment Type		't of Debt verted (\$)	 onversion ice/Share	Conversion Date	Shares issued Pursuant to Conversion
JMJ Capital	Convertible Note	\$	14,640	\$ 0.007	3/13/2015	2,000,000

SECTION 302 CERTIFICATION

- I, Yahia Gawad, certify that:
- 1. I have reviewed this Quarterly Report on Form 10-Q for the period ended April 30, 2015 of CardioGenics Holdings Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chief Financial Officer

Section 906 Certification by the Chief Executive Officer and Chief Financial Officer

Each of Yahia Gawad, Chief Executive Officer, and James Essex, Chief Financial Officer, of CardioGenics Holdings Inc., a Nevada corporation (the "Company") hereby certifies pursuant to 18 U.S.C. ss. 1350, as added by ss. 906 of the Sarbanes-Oxley Act of 2002, that, to their knowledge:

- (1) The Company's periodic report on Form 10-Q for the period ended April 30, 2015 ("Form 10-Q") fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Form 10-Q fairly presents, in all material respects, the financial condition and results of operation of the Company.
